pawn and the heart on the pink pawn. Place the ladybug label on the Nail Storage Tray Top as shown in Figure 1. Remove the remaining labels from the label sheet and place them on the die.

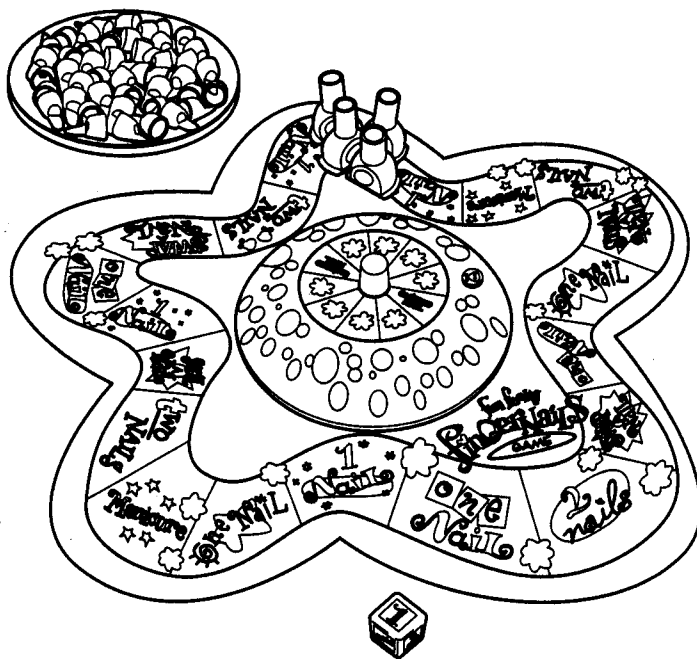

SETUP

- Place the spinner in the center of the gameboard.
- Place the bottom of the Nail Storage Tray within reach of all players.

- Each player chooses a Nail Polish pawn and places it on the **START** space.

- Each player rolls the die. The player rolling "Gold" or the highest number takes the Gold Nail and places it on her finger.

- The player rolling the lowest number plays first. Play then passes to the left.

GAME PLAY

The first player rolls the die.

- If you roll a number, move your pawn, in either direction, the number of spaces indicated on the die. Follow the directions on the space where you land. See "Gameboard Spaces".
- If you roll "Gold", take the Gold Nail from the player who has it and place it on a finger. If you already have the Gold Nail, take a funky nail from the nail tray instead.

NOTE: If you already have 10 nails, you must replace a funky nail with the Gold Nail. You **cannot** replace a chipped nail with the Gold Nail and you **cannot** have more than 10 nails.

GAMEBOARD SPACES

Spin for a nail! What did you get?

- A player landing on any "one Nail" space gets to spin the spinner and collect a nail.

If the spinner stops on a funky nail, take any funky nail from the nail tray. Try to collect a full set of matching nails or create your own style by mixing colors and patterns!

If the spinner stops on a chipped nail, take a chipped one from the tray.

NOTE: If a player already has 10 nails, she must still spin. If she spins a funky nail, she may exchange one she has for a different one. If she spins a chipped nail, she must replace a funky nail with a chipped one.

Bonus! You get to spin two times!

- A player landing on any "two Nails" space gets to spin for 2 nails on the same turn. After finishing her first spin, this player gets to spin again!

Here's a chance to get that nail you've always wanted!

- If a player lands on a "Steal a Nail" space, she can steal any nail from another player, even the Gold Nail if she likes.

I'll trade with you!

- Landing here allows the player to swap a nail with another player. This includes swapping a chipped nail for the Gold Nail.

Treat yourself, you've earned it!

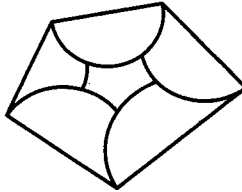

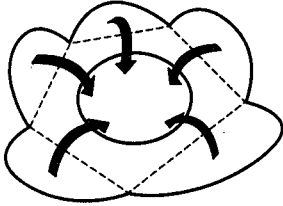

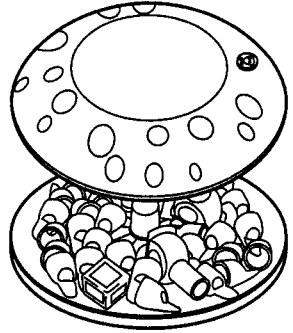

- Land here and fill **one** hand with funky nails. As part of the manicure, you may replace any chipped nails on that hand with funky ones or keep ones you already have. Remember: You may only replace the nails on the one manicured hand.

WINNING

If you're the first player to collect the Gold Nail and 9 Funky Nails, you win the game! The funky nails do not have to match for you to win.

RESTORAGE

Place the spinner in the bottom of the Nail Storage Tray. Place all of the nails, the die, and the pawns in the tray as well, and replace the top. Fold the gameboard and place it back into the box. Carefully place the Nail Storage Tray on top of the gameboard and close the lid for easy storage.
